Project Title: Staccato Music Player

Self assessment:

I have prepared questions, trained an innocent by-standard to be a “client” and conducted the peer interview. I have also prepared a drafted version of the requirements for my peers to elaborate on. I have written the section “Future requirements from the client” in the interview report. Finally, I have read the requirements document and edited typos/spelling mistakes that I found, as well as added a few lines of text.

Peer assessment:
